## Aquarius new Moon

This New Moon at 12 Aquarius activates the Saturn-Uranus square once more. Still in orb until the end of this year, this stressful aspect continues to ask us to behave responsibly, while also making room for more creative free expression.

The thing is we cannot be truly free unless we are acting responsibly. While we might be tempted to rebel against those in authority who we feel are restricting us, in changing tack and breaking free, ultimately we then have to take on more personal responsibility in order to create our new reality. Are we prepared to do that? Finding a balance point between these opposing energies is the ultimate test of this challenging square.

The Sun and Moon highlight the ongoing tension of this aspect, and suggests a number of ways to work through these issues. Hygiea opposes Uranus helping us to clear the decks of wasteful activities and redirect our energy in a positive way. Venus is still at a virtual standstill but her recent station direct on January 29 brings an

uptick in social activity. Her upcoming reunions with Mars are a major turning point. The social and creative agenda is about to shift dramatically. This New Moon is an opportunity to regroup and with retro Mercury conjunct Pluto we can rethink our plans and timelines. All in all this New Moon is a time to make room for creative endeavours, and creatively manage our obligations and duties.

## VAA Presentation and Book Launch

### The Birth of Venus and Mars

(via Zoom)

[Register here](#)

In February and March 2022 there are two unique conjunctions of Venus and Mars. I will be speaking at the VAA monthly meeting about the significance of these powerful alignments that are set to alter our collective trajectory.

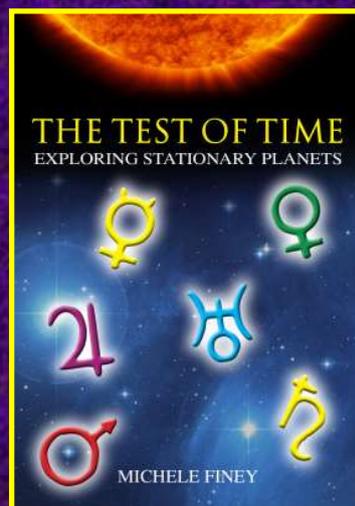

### The Test of Time

(Exploring Stationary Planets)

During this presentation I will be launching my new book, *The Test of Time*, that investigates the phenomenon of stationary planets.

Packed with fascinating case histories of well-known people and events, *The Test of Time*, includes a range of asteroids and dwarf planets.

# Leo Full Moon

e

For some time now I have been feeling optimistic about 2022. Despite the ongoing pandemic and its impact, I still feel that this year will be a major turning point towards a positive future.

Every 32 years Venus and Mars rendezvous and renew their vows travelling along the zodiac in degree increments. These long cycles have a beginning a middle and an end. New cycles do not occur very often, but this particular conjunction is the birth of a new Venus-Mars cycle that happens to coincide with this Full Moon.

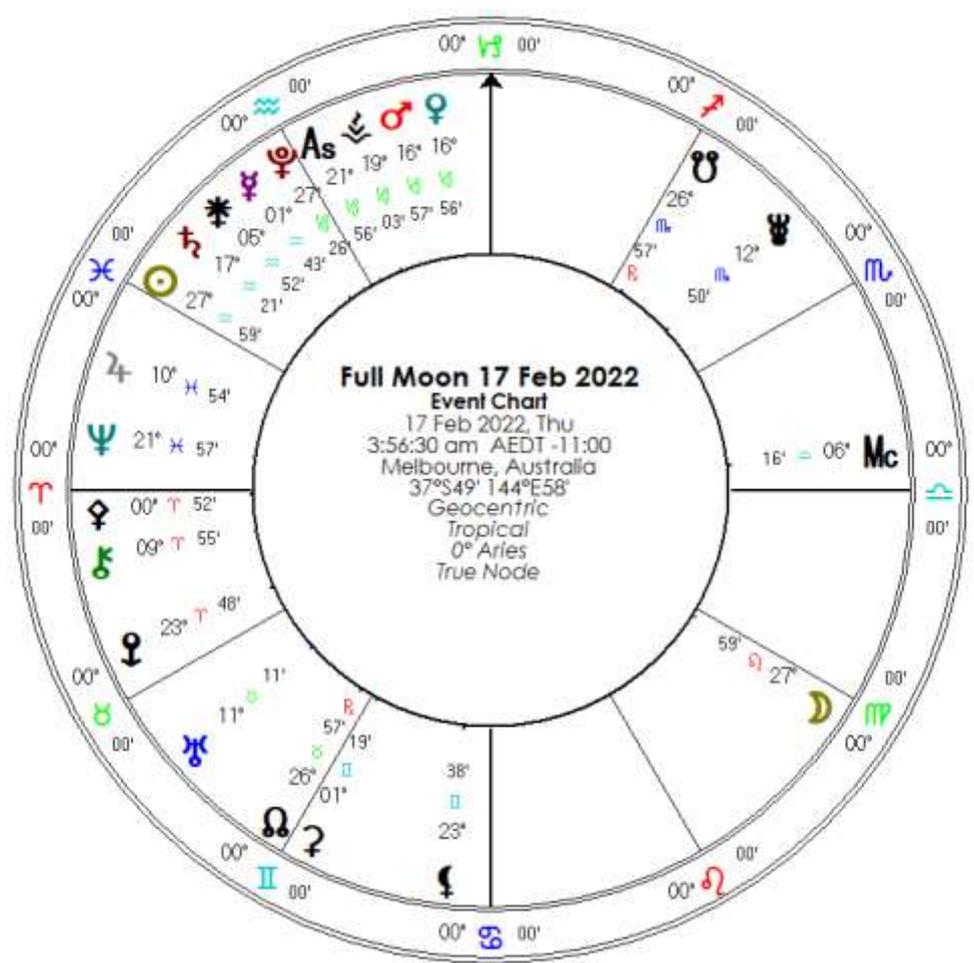

This is a massive creative awakening. New commitments, activities, relationships, and a new social paradigm are set to alter our trajectory.

The Sabian symbol for this particular conjunction is; A repressed woman finds psychological release in nudism. Another sign that the energy of this alignment is highly expressive and is fuelled by freedom and a release from both traditional customs and social constraints. It also suggests that women will play a key role in defining this new social agenda.

While it seems that COVID-19 is here to stay, vaccinations and the

availability of new treatments is encouraging a return to normality. **Indeed, it's possible that this virus may just die out naturally or become inert.**

There might be a period of adjustment with Pluto semi-sextile the Sun and quincunx the Moon, so this may be an awkward transition. Nevertheless, we are crossing a significant threshold that promises to be filled with exciting opportunities.

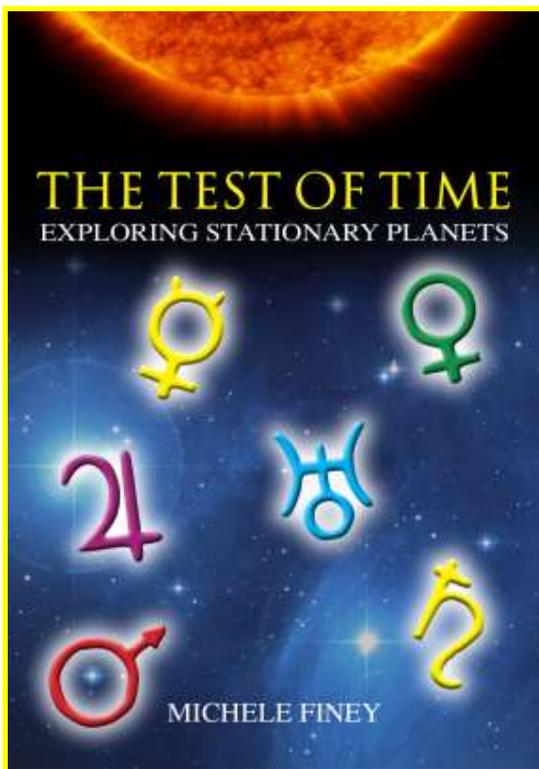

# The Test of Time

~ ~ ~

How should we interpret motionless planets? What kinds of challenges and opportunities do they symbolise?

Packed with a host of fascinating case histories of well-known people and events, my new book *The Test of Time* documents the phenomenon of stationary planets, including a range of dwarf planets and asteroids.

# Venus and Mars

Exciting and dramatic, filled with energy and passion, new cycles of Venus and Mars are about to commence. This foreshadows an incredibly creative and positive experience.

this month, the Moon is crossing his North Node. The involvement of both Pluto and the Nodal axis suggests he cannot avoid fate.

Greta Thunberg, Marie Curie, Jeffrey Epstein and Mohandas Gandhi.

Venus-Mars conjunction are passionate and passions can take many forms.

Events include the 1963 assassination of JFK, the 1972 Australian Federal Election, the 1983 Ash Wednesday Fires, and the moment when Hitler was elected Fuhrer in 1934.

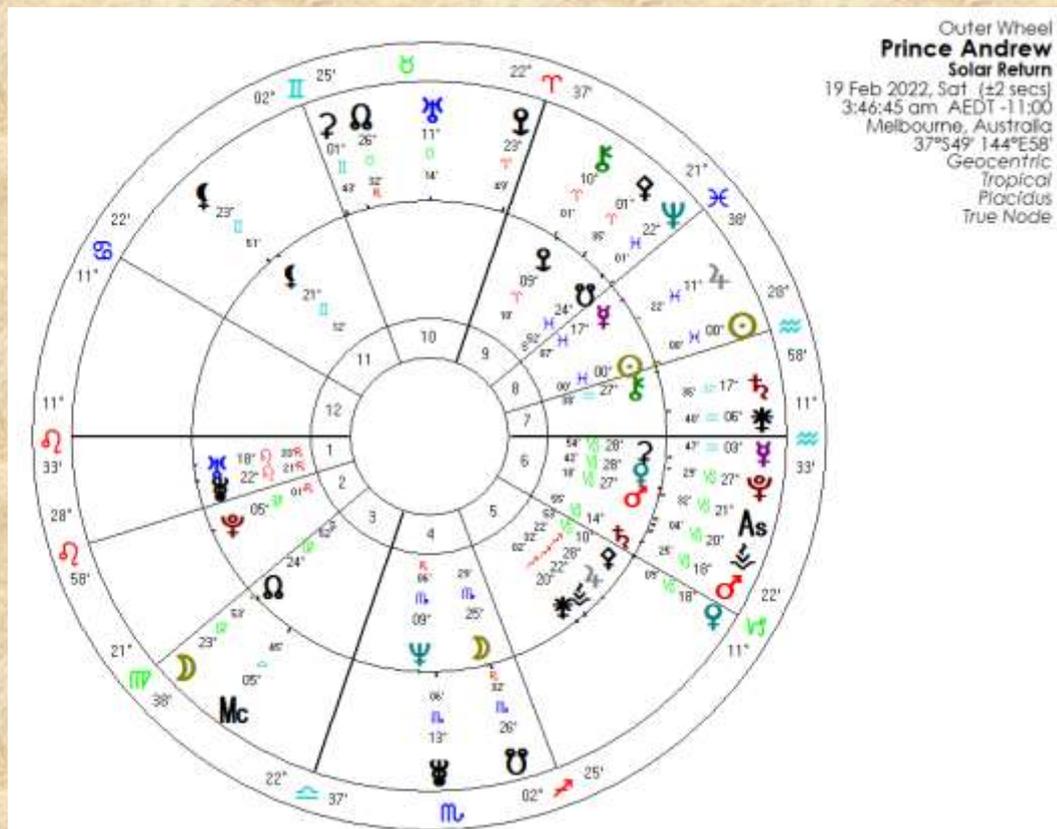

Those born with a tight conjunction of Venus and Mars include; Tom Jones, Dustin Martin, Adolf Hitler, Sally Field, Greta Scacchi, Vincent Van Gogh, David Helfgott, Bruce Lee, Frida Kahlo, Keanu Reeves, Amy Winehouse,

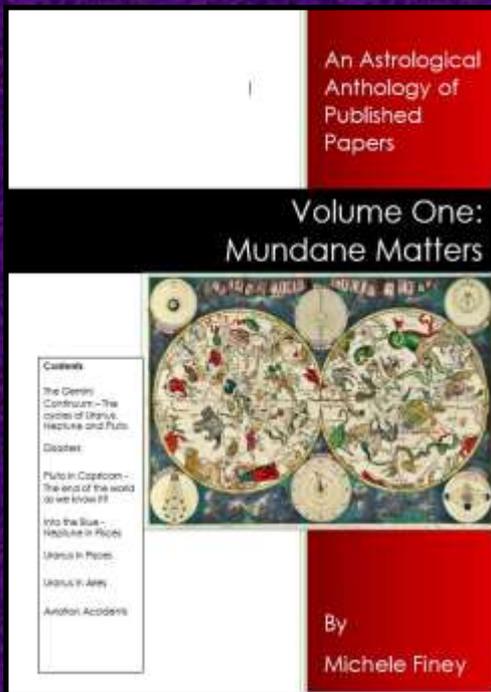

As these show, Venus-Mars conjunctions are not always positive, but I feel hopeful that for most of us, the current one will be an exciting and positive experience.

For the majority, this will be a positive and uplifting time, but other factors can always play a role in how a particular celestial event manifests for the individual. Hard transits of outer planets to planets in our birth chart are an important factor to take into account at the personal level of experience.

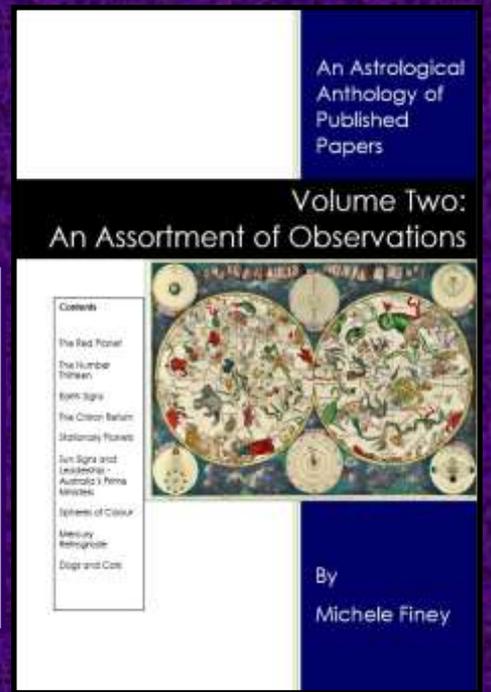

Someone who is in Pluto's path is Prince Andrew who was born on a Venus-Mars conjunction. Transiting Pluto is making a direct hit to his Venus-Mars conjunction plus he has a number of other powerful transits that are revealing his past behaviour. Prince Andrew has been embroiled in a sex scandal by his association with paedophile Jeffrey Epstein and Ghislaine Maxwell.

The transiting South Node is crossing his Moon and in his Solar Return chart for his 62nd birthday
